THE CHALLENGE OF HIPAA COMPLIANCE

Managing HIPAA privacy events is a huge challenge for healthcare organizations. Compliance processes are labor intensive and inefficient. With no automated way to file complaints, log, track and report privacy events - and an ever changing patchwork of state and federal regulations – organizations have an increased risk of fines, sanctions and privacy breaches.

STATE-OF-THE-ART PRIVACY AND SECURITY COMPLIANCE

A cost effective, web-based solution that enables healthcare organizations to efficiently automate patient privacy. Privacy*Pro* maximizes the efficiency of your limited privacy and compliance staff, assists you in maintaining compliance with federal and state regulations, and minimizes your potential liability from a privacy breach.
